

FOLLOW-UP RESOURCES FROM THE 50TH REUNION PANEL ON THE ENVIRONMENT AND CLIMATE CHANGE

Here are suggestions for learning more about the ideas discussed by our classmates on the Panel on the Environment and Climate Change on February 6, 2022.

From Daniel Hirsch:

https://www.committeetobridgethegap.org/wp-content/uploads/2020/12/2020_CBG_50THAnniversaryNewsletter_WebSingle.pdf

https://www.committeetobridgethegap.org/wp-content/uploads/2020/12/2020_Dan_Letter_Web.pdf

From Charles Langmuir:

Charles Langmuir and Wallace Broecker, *How to Build a Habitable Planet*, Chapters 19-21 (these chapters deal with putting human beings into a planetary perspective).

Talk on You Tube:

"In the midst of planetary crisis, what is the role of the individual?"

https://www.youtube.com/watch?v=zmXzf_K2loc&t=12s

[Clarendon Talk Edited](#)

Many consider that climate change is the major challenge of our time, but that there is little the individual can do. For CO2 emissions, changes in personal ...

From Molly Narens Ross:

National Park Service website information on climate change

<https://www.nps.gov/subjects/climatechange/index.htm>

Upcoming book by Jonathan and Destry Jarvis on how partisan politics has affected the National Park Service

<https://press.uchicago.edu/ucp/books/book/chicago/N/bo147207881.html>

From the Question and Answer Session: Suzy Underwood recommended *The Ministry for the Future* by Kim Stanley Robinson. Although it is fiction, Suzy notes that the book provides a compelling picture of how climate change will affect individuals; in addition, it suggests actions that governments and individuals can take.
